

STRATEGIE CAD: ABOUT US

The Strategie CAD mission aims at evolving the concept of creation, design and production by making the most of the best-performing high-tech solutions, thus allowing both small and large companies to project towards a new dimension, in line with the many changes introduced by the fashion market.

We pursue this objective by collaborating with partners of excellence, by providing 2D and 3D CAD, 3D Digitizer and 3D color print solutions, by combining prototyping with high-quality photorealistic rendering, and finally by manufacturing through cutting systems that guarantee a capillary, modular and clever control.

SERVICE THAT MAKES ALL THE DIFFERENCE

Click on our logo to discover all the products and services chosen for you

CHECKING AND REPAIRING FILES FOR 3D PRINTING

Do you have trouble printing a model made or downloaded from the Web? Can you not find the right way to eliminate imperfections or intersecting surfaces? **Strategie Cad offers you the repair service that's right for you!**

Some of the errors in a file are not identifiable except with the use of dedicated professional software and through the careful eye of the expert printer.

An object with imperfections could lead to waste of time during the prototyping cycle until the consequent printing failure.

Strategie Cad shall make available to the consumer the top range instrumentation and the experience gained in the sector, to offer a careful analysis, evaluation and repair of 3D files Maximizing the success rate of your print!

REQUEST FOR PRICE QUOTE
